Available on request

PROFILE

+

Highly motivated graduate in Computer Science with a passion for coding and a strong desire for expansion of current skill set that is looking for a challenging Web Developer opportunity to utilise and further develop existing knowledge in a practical environment.

WORK EXPERIENCE

+

RESEARCH INTERVIEWER (WINTER 2018)

High Fliers Research Limited

Recruiting and interviewing 30 final year students for The Times Final Year Student Survey.

This role has helped me boost my time management, organisational, communication and planning skills. The task involved recruiting 25 final year students to take part in an interview, organising the times for meetings with each participant around my schedule, conducting each interview, recording and submitting gathered data. Not only was I able to successfully accomplish this task but I was also one of the few people who managed to exceed and complete a maximum of 30 interviews.
